
The Ordered Weighted Averaging Operators Theory And Applications

multi-attribute decision analysis in gis: weighted linear ... - informatica 33 (2009) 459-474 459 multi-attribute decision analysis in gis: weighted linear combination and ordered weighted averaging samo drobne and anka lisec university of ljubljana, faculty of civil and geodetic engineering, **characterization of the ordered weighted averaging operators** - characterization of the ordered weighted averaging operators janos fodor e`otv`os lorand university, budapest, hungary jean-luc marichal and marc roubens institute of mathematics, university of li`ege, belgium * abstract thispaper deals with the characterization of two classes of monotonic and neutral (mn) aggregation operators . **ordered weighted averaging with fuzzy quantifiers: gis ...** - ordered weighted averaging with fuzzy quantifiers: gis-based multicriteria evaluation for land-use suitability analysis jacek malczewski* department of geography, university of western ontario, london, ont., canada n6a 5c2 **ranking of alternatives with ordered weighted averaging ...** - ranking of alternatives with ordered weighted averaging operators m. teresa lamata* department ciencias de la computacio´n e i. a., universidad de granada. e. t. s. ingenier´ıa informa´tica, 18071 granada, spain multiattribute decision making is an important part of the decision process for both individual and group problems. **the ordered weighted averaging operators theory ... - springer** - the ordered weighted averaging (owa) operators provide a parameterized family of aggregation operators which include many of the well-known operators such as the maximum, minimum and the simple average. while the original insights leading to the creation of these operators owe **owa operators in decision making - semantic scholar** - owa operators in decision making ... [14] introduced a new aggregation technique based on the ordered weighted averaging (owa) operators. the goal of this paper is to present a short survey of owa operators and illustrate their applicability by a real-life example. 1 fuzzy sets **gis-based local ordered weighted averaging: a case study ...** - ordered weighted averaging (owa) is a generic algorithm of multicriteria analysis. it has been integrated into gis and applied for tackling a wide range of spatial problems. however, the conventional owa method is based on an assumption of spatial homogeneity of its parameters. therefore, it is referred to as a global model. **generalized ordered weighted proportional averaging ...** - we present a new aggregation operator called the generalized ordered weighted proportional averaging (gowpa) operator based on an optimal model with penalty function, which extends the ordered weighted geometric averaging (owga) operator. we investigate some properties and different families of the gowpa operator. **alternative formulations for the ordered weighted ...** - the ordered weighted averaging objective (owa) is an aggregate function over multiple optimization criteria which received increasing attention by the research community over the last decade. different to the ordered weighted sum, weights are attached to ordered objective functions (i.e., a weight for the largest value, a weight for the second ... **ordered weighted averaging approaches for aggregating ...** - ordered weighted averaging approaches for aggregating gradual trust and distrust chris cornelis1 patricia victor1 enrique herrera-viedma2 1 dept. of appl. math. and comp. sci., ghent university, belgium, fchrisnelis.patriciactorg@ugent 2 dept. of comp. sci. and ai, university of granada, spain, viedma@decsair abstract in this paper, we focus on the aggregation **gis^ multicriteria evaluation with ordered weighted ...** - the ordered weighted averaging (owa) is a family of multicriteria aggregation or combination operations (multicriteria decision rules) involving two sets of weights: the weights of criterion ... **us in g ord e red weight av e raging (owa) for mult ...** - of the popular algorithm of multicriteria analysis is ordered weighted averaging (ow a). the owa procedure depends on some parameters, which can be specified by means of fuzzy. the aim of this study is to take the advantage of the incorporation of fuzzy into gis -based soil fertility analysis by owa in west shiraz, fars province, iran. **documents de travail du centre d'economie de la sorbonne** - documents de travail du centre d'economie de la sorbonne ordered weighted averaging in social networks manuel forster, michel grabisch, agnieszka rusinowska 2012.56 maison des sciences Économiques, 106-112 boulevard de l'hôpital, 75647 paris cedex 13 **sas global forum 2008 sas-sponsored o perations research** - ordered weighted averaging in sas: a mcdm application ali emrouznejad, aston business school, birmingham, uk abstract this paper explores the use of the optimization procedures in sas/or software with application to the ordered weighted averaging (owa) operators of decision-making. owa was originally introduced by yager (1988) has gained **intuitionistic fuzzy generalized probabilistic ordered ...** - fuzzy ordered weighted averaging (gifowa) operator and intuitionistic fuzzy probabilistic ordered weighted averaging (ifpowa) operator. we end the paper by applying the new operator to a group decision making problem concerning the selection of investments. keywords: probability, owa operator, intuitionistic fuzzy set, group decision making. **the induced minkowski ordered weighted averaging distance ...** - the induced minkowski ordered weighted averaging distance operator josé m. merigó 1 montserrat casanovas 1 1 department of business administration, university of barcelona, av. diagonal 690 ... **on ordered weighted averaging aggregation operators in ...** - title: on ordered weighted averaging aggregation operators in multicriteria decision making - systems, man and cybernetics, ieee transactions on **ordered weighted utility multiple averaging operators and ...** - interval generalized ordered weighted utility multiple averaging operators and their applications to group decision-making yunna

wu 1,2, chuanbo xu 1,2*, haobo zhang 1 and jianwei gao 1 1 school of economics and management, north china electric power university, beijing 102206, china; **a method for image reduction based on a generalization of ...** - a method for image reduction based on a generalization of ordered weighted averaging functions a. diego s. farias y, valdigleis s. costa z, luiz ranyer a. lopes x, benjamín bedregal {and regivan h. n. santiago}january 18, 2016 **the connection between distortion risk measures and ...** - the connection between distortion risk measures and ordered weighted averaging operators jaumebelles-sampera,josé emigilio,montserratguillénandmiguelsantolino* department of econometrics and department of business administration, riskcenter - irea university of barcelona. spain. abstract **cloud generalized power ordered weighted average operator ...** - ordinal ordered weighted averaging operator [15], linguistic weighted conjunction operator [16]; (2) the second is built on the extension principle [17,18] and makes computations on fuzzy numbers that support the semantics of the linguistic labels, such as the linguistic owa operator [19], and the linguistic weighted owa operator [20], the ... **application research of combined forecasting based on ...** - definition of the predicted value of the weighted arithmetic average combination, let iowa t (...) $\sum = - m i l i x a$ index it 1 (.). (2) equation (2) is referred to induce ordered weighted averaging operator combination predicted value which is produced by the t-time predicting accurate series a it. a ... **induced intuitionistic fuzzy ordered weighted averaging ...** - we present the induced intuitionistic fuzzy ordered weighted averaging-weighted average (i-ifowawa) operator. it is a new aggregation operator that uses the intuitionistic fuzzy weighted average (ifwa) and the induced intuitionistic fuzzy ordered weighted averaging (i-ifowa) operator in the same formulation. **a fuzzy ordered weighted averaging approach to rostering ...** - a fuzzy ordered weighted averaging approach to rostering in nurse scheduling problem svetlana simić1, dragan simić2(.), dragana milutinović1, jovanka Đorđević3, and svetislav d. simić2 1 faculty of medicine, university of novi sad, hajduk veljkova 1-9, 21000 novi sad, serbia {svetlanamic.draganautinovic}@mf.uns **a characterization of the ordered weighted averaging ...** - the ordered weighted averaging operator owa defined on s^{m2in0} ir m and associated to $!$ is the operator $(owa(m)!(m))m2in0$. 4 characterization of the owa functions before obtaining the announced characterization. we first need some technical lemmas. lemma 1 if the aggregation function m defined on s **the ordered weighted averaging algorithm to multiple ...** - in this paper, we propose an ordered weighted averaging algorithm to solve multiple attribute decision making with attribute values within triangular fuzzy numbers. keywords: multiple attribute, decision making, triangular fuzzy number, owa. 1 introduction . multiple attribute decision making is characterized by a decision maker, who is **ranking with ordered weighted pairwise classification** - 3. ordered weighted classification in this section. we present our framework of ordered weighted pairwise classification, and make the link between the aggregation of pairwise losses and the ranking errors of definition 1. we start with some background on ordered weighted averaging operators (yager, 1988). 3.1. ordered weighted averaging **modelling site selection for solar power establishment by ...** - network process (anp) and ordered weighted averaging (owa) methods. the database including climatic, geomorphologic, environmental, spatial and constrain parameters is prepared for analysis in the geographic information system (gis). in the next step each layer was standardized and weighted through the fuzzy logic **application of the ordered weighted averaging (owa) and ...** - the 11th international days of statistics and economics, prague, september 14-16, 2017 675 application of the ordered weighted averaging (owa) and topsis method in competency modelling katerina kashi abstract presently competency models are widely used by companies for several human resources **some interval-valued pythagorean fuzzy weighted averaging ...** - operators including, interval-valued pythagorean fuzzy hybrid weighted averaging (ivpffwa) aggregation operator, interval-valued pythagorean fuzzy ordered weighted averaging (ivpfowa) aggregation operator and interval-valued pythagorean fuzzy weighted averaging (ivpfwa) aggregation operator. we also discuss some of their basic properties includ- **on the use of the owa operator in the weighted average and ...** - iii. the ordered weighted averaging -weighted averaging operator the ordered weighted averaging - weighted averaging (owawa) operator is a new model that unifies the owa operator and the weighted average in the same formulation. therefore, both concepts can be seen as a particular case of a more general one. **a unified model between the owa operator and the weighted ...** - the ordered weighted averaging - weighted average (owawa) operator [6-7] is a new model that unifies the owa operator and the weighted average in the same formulation. therefore, both concepts can be seen as a particular case of a more general one. it can be defined as follows. definition 4. **irrigation intensification or extensification assessment ...** - the ordered weighted averaging (owa) is a framework of multicriteria aggregation procedures (yager, 1988, 1996). the nature of owa depends on its capability to implement different combination operators by specifying an appropriate set of order weights. there have been several applications of the conventional **bonferroni means with induced ordered weighted average ...** - the induced ordered weighted average is an averaging aggregation operator that provides a parameterized family of aggregation operators between the minimum and the maximum. this paper presents some new generalizations by using bonferroni means (bm) forming induced bm. the main advantage of this approach is **induced ordered weighted geometric operators and their use ...** - induced ordered weighted geometric operators and their use in the aggregation of multiplicative preference relations f. chiclanaa, e. herrera-viedmab, f. herreraab, s. alonsob centre for computational intelligencea school of computing, de montfort

university **some induced ordered weighted averaging operators and ...** - some induced ordered weighted averaging operators and their use for solving group decision-making problems based on fuzzy preference relations f. chiclana y.e. herrera-viedma f. herrera y s. alonso z abstract **fuzzy linguistic induced ordered weighted averaging ...** - 3. fuzzy linguistic induced ordered weighted averaging (fliowa) operator inspired by mitchell and estrakh's work 17 . yager and filev introduced in 18 a more general type of owa operator, which they named the induced ordered weighted averaging iowa operator. definition 3.1. an iowa operator of dimension n is a function $\Phi w: r \times r^n \rightarrow r$.to **petrochemical industry site selection using ordered weight ...** - information system (gis) and ordered weighted averaging (owa) regarding all sustainable development materials and methods study area hamedan province by mountainous and mild climate and with an area of about 19,232 km² is located in west part of iran (34.77°n and 48.58°e). according to the census of 2006. the population of **induced ordered weighted geometric operators and their use ...** - induced ordered weighted geometric operators and their use in the aggregation of multiplicative preference relations f. chiclana.1.* e. herrera-viedma.2.† f. herrera.2.‡ s. alonso2.§ 1center for computational intelligence. school of computing. de montfort university. le1 9bh the gateway. leicester. united kingdom **a new decomposition of the kakwani poverty index using ...** - a new decomposition of the kakwani poverty index using ordered weighted averaging operators oihana aristondo mariateresa ciommiy march 19, 2014 abstract in the literature of poverty. it is well known that every poverty index should be sensitive to the incidence of poverty. the intensity of poverty and to the inequality among the poo individuals. **aggregation of triangular fuzzy neutrosophic nformation ...** - mation, such as simplified neutrosophic number weighted averaging (snnwa), simplified neutrosophic number weighted geometric (snnwg), simplified neutrosophic number ordered weighted averaging (snnowa), simpli-fied neutrosophic number ordered weighted geometric av-eraging (snnowg), simplified neutrosophic number hy- **the connection between distortion risk measures and ...** - dered weighted averaging (owa) operator introduced by yager (1988) and the weighted ordered weighted averaging (wowa) operator introduced by torra (1997). distortion risk measures, owa and wowa operators can be analyzed from the the-ory of measure. classical measures are additive, and linked to the lebesgue integral. **the decompositions of rank-dependent poverty measures ...** - the decompositions of rank-dependent poverty measures using ordered weighted averaging operators oihana aristondoa. mariateresa ciommi abridge research group. departamento de matem atica aplicada. universidad del pa s vasco. avenida de otaola 29. 20600 eibar (gipuzkoa). spain **aggregation of pentagonal fuzzy numbers with ordered ...** - criteria. we have employed the generalized ordered weighted av-eraging operator to order the importance of the criteria. then we have proposed the generalized ordered weighted averaging opera-tor combined with vikor for the multiple group decision analysis which is characterized by pentagonal fuzzy numbers. **web-enabled spatial decision analysis using ordered ...** - ordered weighted averaging (owa). geographic information systems jel classification: c61, d89, r29, z00 1 introduction in the most general terms, multicriteria decision problems involve a set of decision alternatives that are evaluated on the basis of conflicting and incommensurate criteria. central to gis-based multicriteria analysis is the **spatial weed distribution in the major cotton area of ...** - central greece using ordered weighted averaging (owa) method d.p. kalivas, m. poulou, g. economou & c.e. vlachos agricultural university of athens 2nd workshop of the ewrs working group: weed mapping jokioinen, finland 21-23 september 2011 general scope development of cotton weed spatial distribution models through the implementation of multi- **continuous intuitionistic fuzzy ordered weighted distance ...** - ordered weighted averaging (c-owa) operator, which is an extension of the owa operator when the given argument is a continuous valued interval rather than an exact argument. recently, the c-owa operator has attracted more and more attentions from both decision **some series of intuitionistic fuzzy interactive averaging ...** - functions. based on it, some series of different averaging aggregating operators includ-ing weighted average, ordered weighted averaging and hybrid weighted averaging have been proposed. it has been observed from these operators that the existing operators can be deduce from the proposed operators by giving a parameters to be a special numbers. **multiple attribute group decision making method based on ...** - ordered weighted averaging (owa) operator which was widely used in decision field. the owa operator can weight the inputs according to the ranking position of all inputs. many extension of the owa operator have been proposed, such as uncertain aggregation operators [12,14,15], the **induced a method based on owa operator and distance measures for ...** - the ordered weighted averaging (owa) operator (yager, 1988) is a well-known aggre-gation operator that provides a parameterized family of aggregation operators, including the maximum, the minimum, and the average. since its appearance, the owa opera-
